

Application

App3, 4 have no relation with app1. They just are deployed on node1, and they use RI1

App1 depends on RI1, RI2, app2, app5. App5 depends on RI3, app6

The blue ones are we have currently, the red ones are we are going to add.

One part of app1 is deployed to node1, another part is deployed to node2. Both parts use RI1

No other app deployed on node2 uses RI2

Show to these levels are OK, don't show further levels
